

Données annuelles de pluie du bassin de l'Oubangui

Zaïre devenu République Démocratique du Congo

J. CALLEDE - ORSTOM - non daté

Nathalie Rouché a trouvé, en 2013, dans les dossiers du laboratoire d'hydrologie des relevés de pluies annuelles, données qui ne sont pas saisies dans la base de données Sierem.

On les trouvera dans les 3 tableaux suivants pour la période 1930 à 1952. Ces tableaux complétés manuellement contiennent :

- le nom des stations,
- les coordonnées longitude et latitude
- les hauteurs de pluie annuelle de 1930 à 1952.

Référence : Variations et Bilans des flux de matières particulaires et dissoutes de l'Oubangui à Bangui
